

## New Church News

As of April, 2017

Now that we have our architect and contractor on board and we have a design that has been approved by the zoning committee at the County, it is time to get going!!! We will be working with the civil engineer to finish the site survey so we can get a Site Plan Permit and begin the next phase of work!! The permit process is lengthy but we are moving forward!

*Honoring our Past, Building our Future* campaign is coming to a close so please finish making payments on your pledges as we need your contributions to continue to move forward. If you have not contributed, PLEASE make a contribution. You can use the envelope in your monthly packet or contribute through our electronic giving program, Parish Giving. You can even drop off (or mail) a check to us!! Please put capital campaign in the memo line!

We need EVERYONE to contribute to the new church!! You want to be part of our future when we think of how joyous it will be when we will celebrate Mass with Mary's sorrows portrayed in stained glass behind the tabernacle...it will remind us of all that Christ did for us!
